Artist's Statement

“This body of work draws from the Dutch Renaissance tradition, but reflects a modern sensibility.

While I use rich colours and lighting to create drama, the overall effect is one of warmth.

Each piece is a moment in time, evoking memories of orchards, kitchens and family.

They are a gorgeous collection of individual pieces that complement each other
and can equally happily stand alone.”

- Jenny Turner

Artist's Statement

“My work is influenced by the masterpieces of classical still life artists.

I enjoy experimenting with colour and composition,
while light and shadow also play a significant role in my creations.

Many of the objects I use come from my personal collection.

My goal is to produce works that are both accessible and enjoyable for everyone.”

- Natasha Junmanee
